IMPRESSIVE RESPONSE TO CLERGY'S APPEAL

To Attend the First Mass Celebrated

OUTSIDE PALE OF THE LAW

Early Dispatches State that Wherever Mass Was Celebrated, Charges Were Drawn Up and Summoneses Were Issued.

Paris, Dec. 14.—There was an impressive response Thursday morning to the clergy's appeal to their parishers to attend the first mass celebrated outside of the pale of the law. A correspondent of the Associated Press visited a dozen churches, including Notre Dame, des Victories, St. Germain d'Auxerrois, where the signal for the St. Bartholomew massacre was given; St. Roch, the madelaide and St. Augustine.

Everywhere it was the same story. The front gates of the churches were closed but the Catholics by the gray light of dawn were streaming through the side portals. The interiors of the buildings were well filled, in several places there was music, but no where was there the slightest attempt to interfere with the service or create a disturbance.

There were three policemen stationed outside of the porticas of the churches to prevent any possible disorder while police officers in plain clothes were on duty inside to note the infractions of the law, taking the names of the officiating priests and aproximating the number of those present with the object of makifg reports to the justices of the peace. Formal charges were entered wherever mass was celebrated except at the churches of St. Jean d'L Evangile and St. Blaise de Charonne at Prelachaise, whose parishioners following the example of the first mentioned church, made the called-for application Wednesday evening to hold services under the law of 1881. The vicar of St. Blaise de Charonne, when induced by his parishioners to take the step, said:

"Whatever the consequences, I regret nothing. I am a Frenchman above everything."

Early dispatches from the departments say that wherever maps was celebrated charges were drawn up and summonses issued. At Chalons the Abbe Renaudin claimed that the bells were not rung and that no person was invited to mass and that, therefore, the assemblage had not the character of a meeting, whereupon he was compelled by a police officer to inscribe his protest upon the summons.

At the final meeting Wednesday night of the diocesan council here, it was decided that neither the ecclesiastical residences nor the seminaries should be abandoned except before a show of force. It is officially stated letiers of Monsignor Montagnini, the expelled secretary of the papal nunciature here, show that the majority of the French bishops favored observance of the law of 1881 and bowed with reluctance to the papal decree. The official statement adds that the inviolability of the diplomatic correspondence of the unnciature was scrupulously respected before the rupture between the vatican and France.

McFaul Speaks of Situation.

New York, Dec. 14.—Bishop Jas. A. McFaul, of Trenton, at a dinner given in the New Jersey capital on Wednesday night in his honor, spoke of the present situation regarding the church in France. He said the French government has gone mad, but there will be a reaction. "However indifferent the French people may appear," said the bishop, "they cannot forget the glory of their nation is inseparably bound up with Christianity. The time will come when God himself will intervene, and declare: 'Thus far shalt though go, and no further.'" On his last visit to the vatican, about six weeks ago, Bishop McFaul said the pope said in reference to the French situation:

"It is not separation; it is destruction. How I wish that the church enjoyed the same liberty in the rest of the world as it does in the United States. There the state attends to its own concerns and allows the church freedom to carry out her divine mission."

Farley Will Make Statement.

New York, Dec. 14.—The crisis in the controversy between the Catholic church and the French government is attracting much attention in Catholic circles here. It was reported that Cardinal Gibbons will summon the archbishops and bishops in America to a special meeting if the French premier carries out his declared policy of expulsion and wholesale confiscation of church property, and that the American prelate will send through Cardinal Richard a letter to their French brethren. It was strongly hinted, too, that Archibshop Farley himself will make a statement in a few days if affairs continue in France as they have begun.

Large Blaze at Waycross.

Waycross, Ga., Dec. 14.—The most disastrous fire in Waycross in years ocurred here Wednesday, and for a short while there was every indication that the property loss would be greater than at any previous fire here. The blaze is believed to have started from a defective flue in the store of A. W. Lang, on Plant avenue, and had likely been smoldering between the ceiling and roof for some time before discovered. The greatest loss will fall upon those who had household goods stored away on the second floor of A. W. Lang's place. It is estimated that the value of this property alone was in the neighborhood of $10,000, and practically everything in the storage room was destroyed.

Freak Spelling Under Ban.

Washington, Dec. 14.—The house of representatives Wednesday went on record in opposition to the new spelling as recommended by the president. By a vote of 142 to 25 the following was adopted as a substitute to the item reported by the appropriations committee on the legislative, executive judicial appropriation bill: "No money appropriated in this act shall be used in connection with printing documents authorized by law or ordered by congress or either branch thereof unless the same shall conform to the orthography recognized and used by generally accepted dictionaries of the English language.

Negroes Freed in Murder Case.

Atlanta(Dec. 14.—The foulr negroes, Marion Peters, Jim Peters, Wyly Brooks and George Lewis, charged with the murder of County Policeman Heard at Brownsville, during the race riot, were acquitted by a jury of representative Fulton county men, and all four given their liberty. The trial was begun Tuesday and the argument concluded Wednesday morning. In his charge Judge Roan stated that if the jury did not believe the negroes guilty of forming a conspiracy against the county police, they should be found not guilty of the murder, and that was the question on which the decision hung.

Bradford Went Out to Kill.

Bristow, Okla., Dec. 14.—N. L. Bradford, of Parsons, I. T., was killed or committed suicide at the home of his brother-in-law, S. L. Clemons, over family affairs. He started to fulfill his mission yesterday and the men exchanged shots, then Bradford, according to the story of witnesses, turned his own revolver to his head and fired a fatal shot.

It is charged that they caused a fourth person to make false entries of 1[illegible] acres.

Hardy was seen early Thursday morning going in the direction of the town of West Point, Ga.

A large posse is in pursuit. A reward of $1,500 has ben offered for the capture of the guilty party.

Try To Save Mrs. Birdsong.

Hazlenurst, Miss., Dec. 14.—Powerful influences are being moved to save Mrs. Angie Birdsong, convicted of manslaughter, for killing Dr. Thos. Butler. United States Senator McLaurin, her uncle, will arrive in Hazlehurst today to help her, and another uncle, A. Q. May, formerly state treasurer of Mississippi, is already here. Leading business men, state and county officials and members of the clergy are signing a petition to the court to grant Mrs. Birdsong bail until her appeal for a new trial is decided upon. The local business men say that they will furnish the young woman bail without leaving the courtroom, even if the amount is $100,000. Two of her jurors have written the court asking that the lightest possible penalty be imposed.

William I. Brown Detad.

New York, Dec. 14.—William I. Brown, formerly publisher of the Daily News, died at Great Barrington, Mass., Thursday, aged 66.

FIFTEEN YEARS FOR OSBORNE.

Man Convicted of Attempting to Assault 7-Year-Old Girl.

Atlanta, Dec. 14.—A. M. Osborn, a married man, was found guilty in the superior court of assault and attempt to rape Lena Cox, the 7-year-old daughter of Mrs. M. J. Cox, on Nov. 24. Judge Roan imposed a sentence of 15 years.

When placed on the stand Osborne emphatically denied having committed the crime or having any knowledge of it, but the testimony of witnesses for the prosecution was decidedly incriminating.

Lena Cox, the girl, made an intelligent statement of the defendant's action toward her, testifying that he had been annoying her for four months. It did not appear from the testimony that he accomplished his purpose.

It was brought out at the trial that Osborne was a neighbor of the Cox family and that the girl, Lena, sometimes came to his house and that on many occasions he had followed her about the premises in a suspicious way.

Solicitor Hill did not make any lengthy argument before the jury, he only bringing out strong points of the testimony.

Mr. Hill said that although it seemed impossible that a man would stoop to such a thing, the law had provided a penalty for it and other crimes of the kind, and that mankind, however preposterous it appeared, did commit them. He drew a very graphic picture of the atrocity of the deed and turned the case over to J. A. Dodgen, the attorney for the defense.

Judge Roan finished his charge to the jury at 11:45 o'clock and a verdict of guilty was rendered shortly after the noon recess, the afternoon session beginning at 1:30 o'clock.

LANDS IN BAINBRIDGE JAIL.

Thomas Middleton Charged with Attempting to Assault Girl.

Bainbridge, Ga., Dec. 14.—Argent Floyd, 18-years-old, daughter of J. W. Floyd, of Donalsonville, in the western part of the county, was attacked by Thomas Middleton, a white man. She was going home from the telephone exchange, where she worked. Middleton followed the girl into a deserted part of the road, when he grabbed her from behind. The girl's cries frightened him away and attracted aid.

Middleton was captured by Deputy Sheriff Oliver at midnight, as he was about to make good his escape on a train. He was carried before Miss Floyd and positively identified as the man who attempted to assault her. He was then brought to Bainbridge and placed in jail.

Middleton makes no statement except that he is innocent. The fact that he was seen following the girl by two men and Miss Floyd's identification, makes the case strong against him. The Floyds are well thought of.

Middleton comes of a good family, but has a bad reputation. He is 35 years old, and married, but deserted his wife four years ago.

DAVIDSON RELEASED UNDER $1,000 BOND

Waived Examination for Appearance at Next Term Circuit Court.

"I AM SURELY NOT GUILTY"

Declared Davidson, When Court Put the Question to Him, "And Will Waive Examination and Give Bond," Which Was Quickly Furnished.

D. M. Davidson of High Springs, who was arrested by Sheriff L. W. Fennell, Marshal O. C. Harwell and Night Officer J. L. Shaw of High Springs, after the officers had raided what was alleged to be the restaurant owned by the defendant in that place, was arraigned before County Judge Mason Friday morning, when he waived examination and gave bond in the sum of $1,000 for his appearance at the next term of the circuit court, which will be held in the spring.

As has been stated before, Davidson was arrested upon a charge of selling liquors in a county which had voted against the sale of same, which naturally is a violation of the State and county laws. There was no scene, no demonstration, when the defendant was arraigned before the county judge's court.

"Mr. Davidson, you are brought before this court upon a charge of selling intoxicating liquors in a county which has voted against the sale of same. What have you to say? Are you guilty or not guilty?" asked the judge.

"I am not guilty," promptly replied the defendant. "I will waive examination in this court and give bond for my appearance before the circuit court."

Mr. Davidson promptly furnished the required bond, when he returned to his home at High Springs.

FARMER'S SERIOUS LOSS.

Over a Half-Mile of Fence Burned, Which Caused Big Inconvenience.

A report from a well known white farmer of the Rocky Hill section, who was in the city Saturday, is to the effect that the farmers of that section are suffering great damage, by the woods being burned off, and in many instances the farmers are losing their fences.

"One of the most serious losses on account of the dry weather," remarked this farmer, in speaking of the situation, "is that of John Whittaker, an industrious colored man whom we all like, because he is so peaceable, energetic and clever. Whittaker, who is a hard-worker, permitted hunting on his place, with the result that from the 'wads' from the guns his place caught fire, and he lost more than a half-mile of good fence."

Whittaker seems to stand high with his neighbors, both white and black, and it is to be regretted that he has sustained this loss, which will amount to at least a couple of hundred dollars.

WEST COURT STREET IS STILL OBSTRUCTED

Mayor Thomas Addresses Interesting Communication to Council.

PROPERTY BELONGS TO HIM

According to the Survey of Brown's Addition, and the Other Fellow Is the Fellow Who Is Encroaching on the City's Rights.

That old adage, "What's mine is mine," was never more cleverly or forcibly demonstrated than in a communication from Mayor W R. Thomas to the City Council, in reply to a request instruction from that body requesting that official to order the marshal to remove certain obstructions on West Court street.

As was stated a day or two ago, the Council, in adjourned session, had reported to them that a certain section of West Court street directly west of the Gainesville and Gulf railroad, had been obstructed by a fence enclosing certain property. The municipal body, as has been its custom in all cases where public thoroughfares have been obstructed, promptly passed a resolution requesting the mayor to instruct the officers to have same removed.

When the matter came to a head, however, it was ascertained that the obstruction in question was a fence which enclosed a parcel of property alleged and claimed to be owned by the mayor, and he positively refused to issue the instructions.

Mayor Thomas, however, has sent to the Council the following communication, which will be read at acted upon in one way or another at the next meeting of that body:

"President and Members City Council: Gentlemen—In reply to your order for removal of fence, etc., on West Court street, beg to say that the fence erected by me is not on the street, but that the enclosures north of this block take in the entire street, as shown by the orginal survey of Brown's addition, and these fences should be removed. The Council could not determine the street, except that it could employ a surveyor to ascertain the street lines as originally surveyed in the sub division of S. W. ¼ by J. B. Brown.

"Yours very truly,

"W. R. THOMAS"

Council Still in Hole.

This communication, however, still leaves the City Council in the hole. It will now become necessary to have a complete resurvey of that section of the city, as it has been said by one who is in position to know that there is not extant a single map of "Brown's addition," hence a new survey will be necessary before the lines can be established.

A prominent member of the City Council stated Friday that, if the property in question was enclosed in accordance with Brown's survey, it was a very incompetent job, since the survey threw the street lines entirely off.

The entire matter seems at present a muddle, but there is no doubt but that in the end it will be amicably settled. The people have no fear but that Mayor Thomas is willing to do what is right, but he has yet to be shown that the Council is correct. He has the property enclosed, and as the old adage goes, possession is nine-tenths of the law.

Hon. Henry S. Chubb, chairman of the State Central Committee of the Republican party, has returned from Tallahassee, where he has been for the purpose of attending a meeting of the Republican State Committee in the matter of making certain recommendations for appointment to office.

There were present at this meeting a number of the leading Republicans of Florida, among whom were Col. Chubb, Hon. J. N. Coombs of Apalachicola, member of the National Committee, Hon. W. H. Northrup, postmaster at Pensacola, Hon. T. F. Bellamy, United States marshal of the Northern District of Florida with headquarters at Pensacola, Hon. John E. Billman, collector of customs at Pensacola, and Hon. Chas. H. Parlin of Apalachicola.

The meeting was called for the purpose of making selections, in fact nominating the officers for United States Marshal for the Northern District of Florida and the postmaster at Pensacola, which is the third in importance in the State. The committee, after short deliberation, recommended the present incumbent, Mr. Northrup, for postmaster and Mr. McGourin for United States marshal, to succeed themselves.

In speaking of the meeting Col. Chubb said: "It was one of the most satisfactory meetings I have ever attended. It was one full of enthusiasm and interest, yet every person present seemed possessed of the best of spirits, and there was no opposition."

A BAPTIST FESTIVITY.

Young People Will Sell Good Things to Eat for Sidewalk Fund.

The Sun has been requested to announce that the young people of the First Baptist Church will give a supper in the Hill block, rear of Saunders & Earle's, Liberty street, on Tuesday evening, the 18th inst.

At this supper one may find enough to satisfy his appetite, and the price will be reasonable. There will be oysters, salads, cake, ice cream—and in fact a world of good things which will find a way to the people's hearts.

It is seldom that the Baptists ask for anything, or give a benefit supper or entertainment. They have been rather averse to that code of raising money, but upon this occasion the church is in need of raising funds to pay for the granolithic sidewalk, and inasmuch as that is a public benefit to everyone who has occasion to pass that way, they feel justified in asking the public to help pay for it, but they are giving value received in the meantime, as the supper you will get at the bazaar will become well worth the price.

The young people will open their "restaurant" at 4 o'clock in the afternoon, and will continue as late in the evening as is necessary. Prices will be reasonable, and a cordial invitation is extended to the public.

Early to Bed

And early to rise, makes one healthy, happy and wise—especially if you take Herbine before retiring. A positive cure for constipation, dyspepsia and all liver complaints. Mrs. S—, Columbia, Tenn., writes: "I always keep a supply of your Herbine on hand. Am so well pleased with the relief it gives in constipation and all liver complaints that words can't express my appreciation." Sold by W. M. Johnson.

MESMER'S METHODS.

He Influenced Patients by Suggestion, but Hid Real Power.

Mesmer published in 1773 his account of the marvelous cures effected by what he was pleased to term animal magnetism. When in 1778 he came to Paris he came with a well developed sense of the value of advertising. The campaign he inaugurated was of a character to disgust the conservative and thoughtful, but to take a sensation loving populace by storm. Most extravagant tales of cures he had accomplished in Berlin, Vienna and elsewhere were noised abroad. Through a convert he challenged the physicians of Paris to enter into a contest with him, they to treat twelve patients by the orthodox methods, he to treat twelve by his. Of course this challenge was rejected, and equally of course its rejection was interpreted by the thoughtless as an acknowledgment of the superiority of Mesmer's treatment. His rooms were thronged. His purse waxed constantly heavier.

The treatment he gave was such as to appeal vividly to the imagination of the patient—in a word, to increase his suggestibility. Suggestion, indeed, was its root element, although Mesmer failed or pretended to fail to recognize this and taught that its efficacy depended upon the effluence of a mysterious fluid. In a room dimly lighted and hung with mirrors the patients were seated about a circular vat of considerable size covered with a lid and containing various chemicals. A long cord connected the patients with one another, while in the lid of the tub were several holes, through each of which passed an iron rod bent in such a way that its point could be applied to any part of a patient's body. The patients were requested not to speak, the only sound in the room being strains of soft music. When expectancy was at its flood Mesmer would enter clad in the robe of a magician and carrying an iron wand. At one patient he would gaze intently, and another he would stroke gently with his wand. Soon some would burst into laughter, others into tears, while still others would fall into convulsions, finally passing into a lethargic state, out of which, it is claimed, they emerged cured or on the highroad to a cure. Occasionally the treatment was given outdoors, a tree being "magnetized" and the patient collapsing in a swoon so soon as he approached it.—Appleton's Magazine.

One Book Authors.

Robert Burton, the author of "The Anatomy of Melancholy," may claim this honor: His book has stood the test of time as few books have. Professor Saintsbury writes that "all fit readers of English literature have loved him." Lamb praises "the fantastic great old man" and, indeed, borrowed from him many a choice phrase. Among other remarkable "one book authors" may be mentioned Sir Thomas Malory, whose famous collection of Arthurian romances is one of the imperishable treasures of the English tongue; Richard Hooker, whose "Laws of Ecclesiastical Polity" is still a standard book on the constitution of the Church of England, and Gilbert White, whose immortal "Natural History of Selbourne" is still read with pleasure and profit.

TO PUSH BUILDING WORK.

Governor Determined to Soon House District Agricultural Schools.

Atlanta, Dec. 14.—Governor Terrell is determined to push to as rapid completion as possible the buildings to be used by the new district agricultural schools.

An important meeting of the chairmen of the executive committees of the various boards of trustees was held in the governor's office with a view to taking up the matter of letting the contracts of these buildings.

Chairmen of executice committees from six of the districts were present, as follows: First district, J. R. Miller, Statesboro; second, J. L. Pickard, Tifton; fourth, J. A. Murrah, Carrollton; sixth, Bostwick, Boatwick; tenth, M. L. Dougan, of Sparta.

As a result of the conference which lasted all the morning several changes in the plans for the academic buildings were suggested, and these will be made at once by the architect, Haralson Bleckley.

It is proposed to advertise for bids as soon as these changes have been made and the specifications completed, and it will be required that all bids be in hand by Jan. 21, 1907.

These bids will call for the erection of the academic buildings and two dormitories in each of nine districts. They will not apply to the seventh district, as Cobb county has agreed to look after the erection of buildings for that district, and in the ninth district no location has yet been selected for the school.

It is estimated that these three buildings in each district will cost close to $40,000, so that the entire contract will involve somewhere in the neighborhood of $60,000.

It is proposed to have all of these buildings completed by June 1, 1907, in full time for the opening of each school with the following season.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed *in plain English* on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination.

Dr Pierce's Pleasant Pellets are the best and safest laxative for women.

MEN HELD UNDER CHARGES.

Of Violating the Contract Labor Law. Cause of Suit.

Charlotte, N. C., Dec. 14.—District Attorney A. E. Holton, filed complaints in the federal district court here against Thomas M. Costello, Edward A. Smith, Sumner B. Sargeant and E. C. Dwelle, charging violation of the contract labor laws.

There are two cases against the defendants, all wealthy cotton mill owners. There are 20 counts in the first case and 63 in the second, and as the fine is $1,000 for every violation the aggregate amount involved is $83,000.

The defendants are given until the end of the term of court now sitting here to demur or answer to the complaint. Through their attorneys, Tillett & Cuthrie, the cotton mill men will attack the legality of the immigration act by a demurrer to the complaint.

The prosecution comes about through the importation of a number of English girls by a regularly authorized immigration agent of the state, and their subsequent employment in the cotton mills of this section.

A government inspector has been here several weeks examining these immigrants and taking their testimony, and the girls are detained here at the expense of their home government.

Made Idiot of Prisoner.

New York, Dec. 14.—A London dispatch published here, says a correspondent at Odessa, describing instances of police repression there, writes of one man who has just finished a six months' sentence in jail for a political offense. Throughout the imprisonment night and day a phonograph fixed in his cell unremittingly ground out the Russian national anthem to teach him patriotism. It had the desired effect. He is now a hopeless idot.

AFFLICTED WITH CATARRH— LIFE HAD BECOME A BURDEN.

Pe-ru-na, Used As a Last Resort, Afford Complete Relief.

MRS. F. CARR.

The Relief Experienced By Mrs. Carr Through the Use of Pe-ru-na, After Having Tried the Best Professional Treatment in Vain, Is a Matter of No Small Wonder Among Her Many Friends.

Mrs. F. Carr, Vineland, Ont., Can., writes:

"For several years I was afflicted with catarrh, which made life a burden.

"The coughing and hacking which accompanied the disease was terrible.

"The complaint finally extended to the stomach and I was in a wretched condition.

"I tried different remedies and the best professional treatment all in vain.

"Finally, as a last resort, I tried Peruna upon the recommendation of my sister in Hamilton.

"I could see steady improvement and after using four bottles of that precious medicine I was feeling well again, my old trouble being completely a thing of the past.

"To-day I would not take one thousand dollars for what this grand medicine has done for me."

Many women owe their lives to Peruna. A great many more owe their health to Peruna.

A multitude of women throughout Canada are using Peruna as a preventative and a relief from catarrhal coughs and colds.

We have in our files a great number of letters from grateful women who have been benefited by Peruna, with permission to use these letters in public print.

Catarrh would not be such a curse to the human race if people thoroughly understood its nature.

Catarrh is a disease which never improves of its own accord, but becomes deeper seated the longer it is neglected. It should be treated at once to prevent it from making inroads upon vital organs.

THE PANAMA CANAL.

The interview of Bishop Warren A. Candler, which appeared in The Sun of Thursday, the 13th inst., was full of interest and good sense from the opening to the closing paragraph, and The Sun has been congratulated on all sides upon securing these expressions from the famous Georgia preacher.

While the subjects handled by Bishop Candler were all important and full of interest, tinged with a sprinkling of patriotism, his remarks on the Panama canal and its relation with the United States, especially the South, and Florida in particular, were well received. Bishop Candler, who has spent some time in the Far East in the fulfillment of his official duties, is a man who studies things, and never fails to grasp a proper and conservative conception of the situation. He states that the cutting of the Panama canal will tend to divert the trade which for more than four centuries has floated upon the bosom of the Atlantic, to the Pacific ocean; that this will prove of the utmost advantage to the whole country, and more especially to the South Atlantic and Gulf States, by reason of the fact that it will afford a quicker and more direct means of international trade, both exports and imports. This is indeed a wise conclusion, and one which is bound to be carried out in the course of time. This movement, Bishop Candler says, has already begun, purely on the strength of the beginning of operations on the great Isthmian canal.

As the Bishop says, the cutting of this canal, with the spirit of Christianity now being injected into the minds and hearts of the people of the Far East, naturally means a more friendly relation and an increase in commerce between the Eastern and Western Hemispheres, and in this the United States, with all its diversified interests, is bound to reap a proportional benefit. The South, with her cotton, her tobacco and other crops which are exclusivelly here, will blossom as the rose, and the increased demand will mean an enhancement of the market value. This is especially true of cotton, which is a necessary commodity wherever civilization exists, and to the South the world is dependent for the bulk of the crop.

There is only a small section of the South which has demonstrated its ability to grow the Sea Island cotton, the staple employed in the manufacture of the finest grades of cloth, and fortunately Florida enjoys the reputation of growing the best of this exceptionally fine staple. The establishing of regular commerce with the East through the Panama canal, therefore, means the greatest commercial benefit to Florida in this particular enterprise, and it is to the interest of the people of this State that the canal be completed at the earliest possible date.

Young people should acquire the habit of correct speaking and writing, and abandon as early as possible any use of slang words and phrases. The longer you put this off, the more difficult the acquirement of correct language will be; and if the golden age of youth, the proper season for the acquisition of language, be passed in its abuse, the unfortunate victim will most probably be doomed to talk slang for life. You have merely to use the language which you read, instead of the slang you hear, to form a taste in agreement with the speakers and poets in the country.

It is said by The Tampa Times that the beautiful canary birds sold by fakirs at the State Fair were English sparrows neatly painted.—Jasper News.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HAVE YOU SHOPPED YET?

The merchants dealing in Christmas toys and the like report that many thoughtful citizens have already made their purchases for Christmas. Are you one of the number of the thoughtful ones? Your shopping has to be done. Why not get busy today? Delay simply aggravates your own discomforts. It gives you a poorer selection of the stocks, as they are depleted by heavy buying.

And there are the overworked clerks to be remembered. No thoughtful citizen of Gainesville will condemn them to spend a Christmas harried and worn by the demands of an eleventh-hour rush, when such a development can be averted by a little forethought.

Start today right by making whatever purchases you think you will have to make and you will be sure to be better pleased than if you waited until the rush on Christmas Eve.

The day of the old-fashioned buckwheat cake is passing. In its place comes one of much lighter hue and of different flavor. This is due in great measure to the reducing of the buckwheat flour with wheat flour. While many people prefer the lighter cake, they also prefer to do their own adulterating.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp Root, and the address Binghamton, N. Y., on every bottle.

BEATEN BY A HAIR.

Hannibal Hamlin's First Try For the United States Senate.

When Hannibal Hamlin was speaker of the Maine house of representatives, away back in the forties of the last century, there was in that body a certain gentleman of faultless attire, pleasing manners, good address and some reputation, but he had one foible. His hair was very thin, and he was highly sensitive in regard to it.

To hide his approaching baldness he had a habit of carefully stroking with pandoline or other preparation each particular hair in its place. One day while in the chair as speaker Mr. Hamlin, in the innocence of a good and joke loving nature, sent for this gentleman and, looking fixedly at his smooth and polished pate, said with a chuckle:

"Blank, old fellow, I just wanted to tell you that you've got one of the hairs of your head crossed over the other."

"You insult me, sir! You insult me!" replied the member, with unexpected and altogether unnecessary indignation, and then, refusing to listen either to reason or explanation, he left the speaker's desk and returned to his seat.

When Mr. Hamlin became a candidate for the United States senate this gentleman was a member of the upper house of the Maine legislature. Although a member of the same party and only one more vote was needed to secure Mr. Hamlin's election, he positively refused to vote for the man by whom he believed he had been insulted.

He was defeated for a seat in the senate—by a hair, but when the next vacancy occurred he was elected.—"Lives of Twelve Illustrious Men."

THE FIRST AUTOMOBILE.

It Was Made In 1572 and Was Worked by a Coiled Spring.

"The first automobile," said the chauffeur, "was made by Johann Haustack of Nuremberg in 1572. Its motive power was neither oil, steam nor electricity, but a coiled spring.

"The first steam automobile was built in France by Cugnot in 1770. It is still to be seen. It is one of the star exhibits of the Conservatoire des Arts et Metiers in Paris. Steam carriages modeled after it were built by William Murdoch, James Watt, Nathan Read and Richard Trevethick. These are, most of them, in museums in London and Birmingham.

"Several steam carriages plied for hire on the streets of London at the beginning of the nineteenth century, but they were so slow, noisy and heavy that the people did not take to them.

"The first modern automobile was built by Amadee Bollee in 1873. Bollee exhibited his car in Vienna and in Paris, and other men, as is always the case, devised improvements on it. Automobiles, by about 1890, began to appear in the jokes of the day. They had taken their place. But it was not until the annual cup races began in France in 1894 that the automobile became a really popular institution."—New Orleans Times-Democrat.

Bowdoin College.

Bowdoin college (pronounced Bod'n) was founded at Brunswick, Me., in 1794. It was named in honor of James Bowdoin, an American statesman in high standing, who died in 1790. His son, James Bowdoin, a gentleman of wealth, who later served in diplomatic circles, being United States minister to Spain, 1805-08, gave to the college at its founding 1,000 acres of land and $5,000 in money. At his death in 1811 he willed to the institution a number of valuable gifts—6,000 acres of land, a library of several thousand books, a collection of fine paintings and an assortment of scientific apparatus. This institution, where the poet Longfellow taught for five years, has preserved its high standing from the first.

Seven In Human Life.

A writer divides the human life as follows: At three times seven a man reaches a competent age in the eyes of the law; at four times seven he is in full possession of his strength; at five times seven he is fit for the business of the world; at six times seven he becomes grave and wise if he is ever destined to; at seven times seven he is in his apogee, and from that time he begins to decay; at eight times seven he is in his first climacteric, at nine times seven he is in his grand climacteric, and at ten times seven he has reached the allotted span of life.

A Western Wonder.

There's a Hill at Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure cough and cold cure. Guaranteed by all druggists. 50c and $1. Trial bottle free.

CHILD TIED TO FATHER'S CORPSE

Both Charles Headrick and Little Son Were Not Divided.

McCoys, Tenn., Dec. 14.—With the body of his 5-year-old boy firmly tied to his own, the remains of Charles Headrick were recovered from the Pawassee river, one and a half miles below McCoys.

Headrick and his boy were drowned on the night of Nov. 18. A sudden flood caught them within a small house near the river bank, and escape was entirely cut off. The drowning occurred at McCoys, a town in Polk county, near Benton, the county seat.

The bodies were recovered a short distance below the scene of the accident.

When found, the boy's body was firmly tied by a rope, upon the back of his father. The supposition is that when Headrick saw there was no escape from drowning except a possibility of swimming ashore, he tied his boy to his back and fastened him there by several strands of stout rope and plunged into the water—a heroic plan and a brave effort to save the child at all hazards.

The effort failed, and father and son died together. Headrick was a night watchman at the copper plant at McCoys. He was well known here.

BAT MASTERSON UNDER ARREST

Federal Deputy Marshal Accused of Criminal Contempt.

New York, Dec. 14.—William B. Masterson, a United States deputy marshal, and William E. Lewis, and Henry N. Cary, editors of the New York Morning Telegraph, were arrested in this city, "charged with criminal contempt" in circulating false and grossly inaccurate reports of the trial of Chester E. Gillette, at Herkimer. Masterson was also recorded as an editor of the Telegraph. All three were sent to the court of general sessions.

Messrs. Masterson, Lewis and Cary were taken to the district attorney's office and then to the district court. Bail was given in the sum of $500 each. The bail specified no time for their appearance in court, but it is understood they will present themselves before a police magistrate of Herkimer county within a reasonable time.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering" J. W. McCollum & Co

Long Tennessee Fight.

For twenty years W. L. Rawls of Bells, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at all druggists'.

Running For Exercise.

A professional runner gives the following suggestions for exercise: Rise at 6:30 a. m. Put on old clothing, easy shoes and a sweater. Time for dressing, five minutes. Walk one-fourth of a mile; time, five minutes. Then run a mile at a dog trot in eight minutes, arranging your circuit of a mile and a quarter so that you will finish at your door thirteen minutes after starting. That exercise will expand your lungs and stimulate your heart action and land you at your doorstep at 6:48 a. m. panting for breath, thoroughly exhausted and perspiring at every pore. You are then ready for your bath and shave and breakfast and for the natural routine of the day. The man of sedentary habits who patiently pursues this exercise may kiss all drugs goodby.

How He Learned English.

Carl Schurz once told a friend something of his early struggles with the English language. He knew it about as American college boys know their German—that is to say, barely at all. One day, "deciding such nonsense must end," he entered a bookstore and asked for the classic of the English language. A wise clerk gave him "The Vicar of Wakefield." He carefully translated it into German and put his work away for six weeks. At the end of that time he translated his translation back into English and then made a searching comparison between his version and that of Goldsmith's original. "After that," he said, "I knew English."

Children's

Favorite tonic is White's Cream Vermifuge, the cure for worms and all children's diseases. It not only kills the worms, but removes the mucus and slime in which they build their nests. Its action on the child is mild and leaves him in a healthy condition. Joe Daniel, Surmac, Tenn., says that he gave one of his children White's Cream Vermifuge when the doctor thought it had colic, and from the first dose the child passed 73 worms. For sale by W. M. Johnson.

The German I and You.

It is surprising when any one takes the trouble to notice how many letters begin with the pronoun "I." To Germans this is egotistical, and their etiquette in letter writing forbids it. It is probably on the same principle that they write I (ich) always with a small letter and you (Sie) with a capital, reversing the English custom.

Character.

The first thing that a human being should recognize about himself is that his character is his distinguishing feature. It is not the amount of money, the amount of power, the amount of brains, that a man has, but his character.

New Cure for Epilepsy.
